# Ebola Scam 2014 Another "Wag The Dog" !!!

Compiled By: Ingri Cassel

**What you are about to read may appear to be incredulous until you start doing a bit of research yourself and begin connecting the dots. Investigative journalists Koen Jacobs, Jim Stone, Jeff C. and Jon Rappoport have all exposed several aspects of the 2014 Ebola Scam proving that every aspect of it has been staged with well paid actors. The end goal is to have most of the western world and Africa vaccinated with an experimental Ebola vaccine.**

### What you should know:

\* On April 29, 2010, the corporation known as "The Government Of The United States Of America As Represented By The Secretary, Department Of Health & Human Services, Center For Disease Control" had their application to patent a human ebola virus species as well as tests to detect its presence approved. [1]

\* The "SUMMARY OF THE INVENTION" section of the patent document also clearly claims that the U.S. government is claiming "ownership" over all Ebola viruses that share as little as 70% similarity with the Ebola it "invented". Why would a government organization claim to have "invented" this infectious disease and then claim a monopoly over its exploitation for commercial use? It is clear that the CDC plans to claim royalties on Ebola vaccines. This certainly increases the likelihood that the vaccines will become mandatory, thus increasing the profit potential for the patent holders. Clearly, Ebola is manmade and this patent proves this contention. [2]

\* The diagnostic tests (the antibody and PCR tests) being used to accurately diagnose Ebola are "utterly unreliable and useless" according to author and investigative reporter Jon Rappoport. Therefore, the CDC's gold standard for testing Ebola patients says nothing about whether they are sick or will become sick. [3]

\* People in the western world need to know what is happening in West Africa. The media has been lying since Ebola as a virus does not exist and is not spread. The vaccine implemented sickness being "called" Ebola was introduced into West Africa through the new AfriMenVac. The end goal was to get troops into Nigeria, Liberia, and Sierra Leone. They tried to get into Nigeria for "Boko Haram" but that fell apart when Nigerians told the truth: There are NO MISSING GIRLS. Global support fell through and a new reason was needed to get troops into Nigeria to steal the newly discovered oil reserves. [4]

\* Sierra Leone is the world's largest supplier of diamonds. Since June 2014, they have been on Strike, refusing to provide diamonds due to horrible working conditions and slave pay. The West refuses to pay a fair wage for the resources. The idea is to keep the workers surviving on foreign aid so they remain a source of cheap slave labor forever. Ebola is the new "reason" for getting troops on the ground in Sierra Leone with the real reason being to

force an end to the Diamond Miners' strikes. [4]

\* In addition to stealing Nigerian Oil, and forcing Sierra Leone back into diamond mining, troops have also been sent to FORCE Vaccinations (Deadly "Ebola" Poison) onto those Africans who are not foolish enough to willingly take the vaccine. 3000 Troops have been sent to insure that this "Poison" continues to spread. [4]

\* On September 10, 2014, the largest newspaper in Monrovia, Liberia, published a column arguing that the United States is directly responsible for scientifically engineering the Ebola virus in a bioterrorism lab and injecting Africans with it under the guise of vaccinations. The article was written by Dr. Cyril Broderick, a former professor of Plant Pathology at the University of Liberia's College of Agriculture and Forestry. Broderick claims the Ebola virus--and HIV--are products of the Cold War. Titled "Ebola, AIDS Manufactured By Western Pharmaceuticals, US DoD?" Broderick also claims that the US Department of Defense unwittingly used Africans to test experimental bioweapons by pretending they were vaccinating them against disease. The US Department of Defense (DoD) funded Ebola trials on humans just weeks before the the alleged Ebola outbreak in Guinea and Sierra Leone. [5]

\* The APPEARANCE of this Ebola "Pandemic" (should Americans not catch on) will be used to scare millions into taking the "Ebola Vaccine" which in reality will start THE PANDEMIC.

\* The Center for Disease Control and Prevention (CDC), the World Health Organization (WHO) and their partners in the pharmaceutical industries have attempted many times to get a pandemic started that would include forced vaccinations. This year they have succeeded in requiring employees of hospitals and clinics to get an unnecessary and risky flu shot or risk being fired. Most health care workers do not realize that they can effectively counter this requirement with a Vaccination Notice, essentially forcing the medical

liability issue. This same approach can be used should they try to force an experimental Ebola vaccine upon you or a family member. [6]

\* The BBC, CNN and The New York Times have been caught blatantly staging actors and lying about the Ebola threat in Liberia and Sierra Leone. Many actors have been caught on film perfectly healthy and then feigning deathly illness. One classic 'catch' is of the father of an alleged Ebola victim walking away with a wad of US dollars in his hand. [7]

If you are worried about getting sick, then work on your health now. The only proven 'cure' for Ebola and hemorrhagic fevers is copious amounts of ascorbates, commonly referred to as Vitamin C. Please share this information far and wide. We need as many people as possible to resist our state and federal government attempts to inject the nation's population with an experimental and possibly deadly Ebola vaccine.
